### George's Marvellous Medicine-Extract 2

He found a couple of LIPSTICKS. He pulled the greasy red things out of their little cases and added them to the mixture. The bedroom had nothing more to offer, so George carried the enormous saucepan downstairs again and trotted into the laundry-room where the shelves were full of all kinds of household items.

The first one he took down was a large box of SUPERWHITE FOR AUTOMATIC WASHING-MACHINES. DIRT, it said, WILL DISAPPEAR LIKE MAGIC. George didn't know whether Grandma was automatic or not, but she was certainly dirty. 'So she'd better have it all,' he said, tipping in the whole boxful.

Then there was a big tin of WAXWELL FLOOR POLISH. IT REMOVES FILTH AND FOUL MESSSES FROM YOUR FLOOR AND LEAVES EVERYTHING SHINY BRIGHT, it said. George scooped the orange-coloured waxy stuff out of the tin and plonked it into the pan. There was a round cardboard carton labelled FLEA POWDER FOR DOGS.

KEEP WELL AWAY FROM THE DOG'S FOOD, it said, BECAUSE THIS POWDER, IF EATEN, WILL MAKE THE DOG EXPLODE. 'Good,' said George, pouring it all into the saucepan.

### George's Marvellous Medicine-Extract 2

Back in the kitchen, George put the huge saucepan on the table and went over to the cupboard that served as a larder. The shelves were bulging with bottles and jars of every sort. He chose the following and emptied them one by one into the saucepan:

A TIN OF CURRY POWDER

A TIN OF MUSTARD POWDER

A BOTTLE OF 'EXTRA HOT' CHILLI SAUCE

A TIN OF BLACK PEPPERCORNS

A BOTTLE OF HORSERADISH SAUCE

'There!' he said aloud. 'That should do it!'

'George!' came the screechy voice from the next room.

'Who are you talking to in there? What are you up to?'

'Nothing, Grandma, absolutely nothing,' he called back.

'Is it time for my medicine yet?'

'No, Grandma, not for about half an hour.'

'Well, just see you don't forget it.'

'I won't, Grandma,' George answered. 'I promise I won't.'

# Maths - Wednesday

LI: To solve missing number problems.

## Mild

$$3 + \square = 5$$

$$6 - \square = 5$$

$$10 - \square = 8$$

$$5 + \square = 10$$

## Hot

$$\square - 50 = 50$$

$$9 + 7 = 6 + \square$$

$$13 + 4 = 10 + \square$$

$$100 - \square = 52$$

## Spicy

$$\square + 5 = 20$$

$$\square - 4 = 10$$

$$14 + \square = 20$$

$$16 - \square = 10$$

$$\square + \square = 26$$

## Extra Hot

Write 2 numbers that are greater than 20 to make this subtraction correct.

$$\square + \square = 2$$

# English - Wednesday

## L1: To write commands.

### Wheel of Imperative Verbs

**Put these imperative verbs into sentences. Remember to write commands, with the imperative going first!**

climb

get

run

make

place

sit

put

drink

play

# Science I

LI: To identify and classify

**Create a poster or a checklist outlining the criteria for how we can tell if something is living or not!**

**A reminder of the criteria is below.**

## Living Things...
