

## Understanding the World - Exploring Technology

Have a look around your home. How many different types of technology can you find? Which room has the most electrical devices? Talk to your grown-up and find out what they are used for.

Go for a walk with your grown-up and use a camera or phone to take some photographs. When you get home, you could look back at the different pictures that you have taken.

We would like to hear about what different types of technology you can independently use in your home, for example the remote control, dvd player, alexa, ipad, tablet, mobile phone etc.

Your grown up could upload what you have spoken about or even show us what pictures you have taken on Tapestry.
